

The stories behind the advert

Alison and Mark Bird

Ex PA to the Chairman of a city bank and ex-Sales Manager" After we were both made redundant, we need to earn extra money quickly and turned to Kleeneze to provide the solution. It's the best decision we have ever made.

We have a ten-year-old son and having both worked up to 60 hours a week away from home during his early childhood, we are so pleased that we can work from home and spend quality time together as a family while we watch our business grow.

Phil Lowe and Helen Kolbusz

Sport Science students at Loughborough University

"Helen and I are full-time students and are fairly short on money – as most full-time students are! We started Kleeneze when a slip was posted through our door explaining how you can earn extra cash from delivering and collecting catalogues.

We were given great training and support from Fay and Andrew, who introduced us to Kleeneze, and are now so happy with our business that we will carry it on as a full-time business when we graduate.

Chrissy Sykes

Ex Health and Safety Assessor

"I started running my Kleeneze business in February 2008 following the birth of my son. I found a lot of the part-time earning options that I came across required ridiculous investment or seemed unrealistic, but Kleeneze offered a practical and exciting prospect.

I've been able to run my business comfortably around my family commitments and my part-time income has reached in excess of £700 per month.

Kleeneze has given me a realistic earning option, where I'm able to combine part-time work with being a dedicated full-time parent."
